INTRODUCTION

I am a Computer Science Engineer, graduated from the Global Academy of Technology, Bengaluru.

As an Engineering student and a self-taught Designer, I like to bring my technical knowledge and design skills together to try and create meaningful designs and user experience.

Apart from having the experience of interning at 4 different startups and working on various freelance projects, I am also very passionate about photography and visual arts.

EXPERIENCE

Codemonk

Associate UI/UX Engineer

Took the ownership of redesigning Codemonk Website and worked on design implementation of an app, ReallQ - a real estate platform.
